"ANURIC!" THE NEWEST DISCOVERY IN CHEMISTRY

This is a recent discovery of Doctor Pierce, who is head of the Invalida Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Doctor Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—such as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric," manufactured by Dr. Pierce, or send 10 cents to Dr. Pierce for a large trial package. If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Doctor Pierce's chemists will examine it, then Dr. Pierce will report to you, "Anuric," free or charge.

NOTE:—French scientists affirm that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "Anuric" (thanks to Doctor Pierce's achievement) is by far the most perfect kidney and bladder corrector obtainable.

Dr. Pierce's Pellets are the original little Liver Pills. One little Pellet for a laxative—three for a cathartic.

Mrs. Trammel Nix and sister Miss Veda Clark, visited home folks near Brunswick from Friday to Monday.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

CARROLL

Carroll county was again visited by one of her famous gosing downers and trash movers Monday and Tuesday. The Burlington was put out of commission by Bridge creek washing out 1-4 mile of track near Tina. The bridge creek is said to have reached the high water mark of last year and destroyed all the crops in its region. The levee at Hardin broke letting Crooked river flow into the Wakenda creek, thus bringing a large body of water down the Wakenda overflowing the bottom lands. At Carrollton the water stood three feet deep in the Light and Power plant, putting them out of commission for a time.

He was about 65 years of age.

Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill. — "While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent \$1900 on doctors and not one did me any good. One day a lady called at my house and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the Insane Hospital."—Mrs. E. SHELDON, 5687 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

Will You Do It? (A. W. J.)

Oh, the paper we spoil, and the ink that we use, as daily we toil to give out the news, should help all our friends to see at a glance that nothing can save us unless we advance the price of the paper, and this we will do as soon as we hear dear readers, from you. Shall we cut down the size or lift up the price; shall we offer a prize of something that's nice, or shall we go on in the old way till we starve to death? What do you say? Now drop us a line, and please make it short nor think this a whim said in jest or in sort, because we mean it, and need your advice, to get over this sheet of very thin ice on which we've been skating far out from the shore, for many long years, a dozen or more. So come to our aid, before it's too late, with need so urgent why longer wait. Our expenses are doubled with more bills to pay and the more it becomes because of delay. Now if you love us, don't quibble or laugh, but come right across with a dollar and a half, and see the P. S. still loading the van, in all that's good and useful to man.—Press Spectator.
